Digital Watchdog[®] Adds to its Horn Speaker Line

The new SiteWatch[™] IP-enabled speaker delivers 15W output and easy integration with external alarms with built-in alarm input.

DW[®] DW-SWSP15A horn speaker.

Cerritos, CA (May 9, 2024) – [Digital Watchdog[®] \(DW\)](#), the industry leader in digital recorders, surveillance cameras, system peripherals and related management software, announces a new addition to our line of SiteWatch IP-enabled horn speakers. The new 15-watt speaker includes a built-in alarm input, as well as audio alerts for deterrence, public safety, and communication to improve daily operations. It can easily be added to existing and new video surveillance installations. The new unit will replace the existing DW-SWSP15 speaker.

This outdoor IP speaker is a robust, IP-enabled audio device that helps to deter crime proactively by responding to events in real time with automated and manual audible alerts. The IP67-rated housing has alarm input and is ideal for challenging outdoor environmental conditions with high ambient noise and can play music, loud ringing, voice paging and notification alerting applications. The speaker is fully integrated with DW

DW Press Release

Spectrum IPVMS and supported IP cameras and can integrate easily with 3rd party access control, analytics and VoIP (supporting SIP) via open standards. The DW-SWSP15A is a standalone solution, an ideal, cost-effective, scalable and flexible approach to system design and comes with DW's 2-year warranty.

“When DW added industry-leading perimeter protection products to our dynamic video surveillance solutions, we set a high bar for performance and interoperability,” said Mark Espenschied, Director of Marketing, DW. “Our line of horn speakers are the perfect complement to a video surveillance system, providing a communication tool and audible deterrence.”
